BAEKTEL

Blending academic and entrepreneurial knowledge
in technology enhanced learning

Blending *Academic* and *Entrepreneurial* Knowledge
in Technology enhanced learning – BAEKTEL

www.baektel.eu

Project no.:
544482-TEMPUS-1-2013-1-IT-TEMPUS-JPHES

Project acronym:
BAEKTEL

Project full title:
**Blending Academic and Entrepreneurial Knowledge
in Technology Enhanced Learning**

Start date of project: 2013-12-01

Duration:
3 years

DEV 6.1

Interactive project web site

Due delivery date: 2016-11-30

Actual delivery date: 2017-04-30

Organization name of lead participant for this deliverable:

University "Mediterranean" (UNIM)

Project funded by the TEMPUS IV programme		
Dissemination Level		
PU	Public	X
PP	Restricted to other programme participants (including the Commission Services)	
RE	Restricted to a group specified by the consortium (including the Commission Services)	
CO	Confidential, only for members of the consortium (including the Commission Services)	

Deliverable number:	6.1
Deliverable name:	Interactive project web site
Work package:	WP6 – Dissemination
Lead participant:	University “Mediterranean”

Author (s) – in alphabetical order		
Name	Organisation	e-mail
Snezana Scepanovic	University “Mediterranean”	snezana.scepanovic@unimediterranean.net
Milena Dragutinović	University “Mediterranean”	milena.dragutinovic@baektel.eu
Dalibor Vorkapić	University of Belgrade	dalibor.vorkapic@baektel.eu
Ranka Stanković	University of Belgrade	ranka.stankovic@baektel.eu

2 BAEKTEL web site

Attractive BAEKTEL website (<http://baektel.eu>) has been established at the start of the project in February 2014. During project lifetime BAEKTEL website is constantly updated with all relevant information about project activities, news as well as important links.

Figure 1: BAEKTEL website (<http://baektel.eu>)

Web site was created in PHP technology. It consists of six main sections: *Project*, *Partners*, *Activities*, *Outreach* and *Links*. Each section contains subsections with more detailed information. Section *Project development site* can be accessed only by BAEKTEL partners and it is used for project management.

Website is used as central place for online presentation of main results of BAEKTEL project and contains links to:

- BAEKTEL Open Educational Resources (OER) platform (<http://edx.baektel.eu/>)
- BAEKTEL Meta Data portal (<http://meta.baektel.eu>)
- Social media widgets (Facebook and Twitter) used for online dissemination of project news and activities.

3 BAEKTEL project management tool

Microsoft Share Point (SP) is a web-based application that integrates with Microsoft Office. Microsoft SP is collaborative platform that can be easily configured to provide a more coordinated environment to track and manage a project. One of the biggest benefits of using SP for project management is that each project site can be set up to match and expose specific project management processes.

BAEKTEL SP (<https://rgfrs.sharepoint.com/sites/baektel/SitePages/Home.aspx>) platform is customized version of Microsoft SP created according to needs of BAEKTEL project team.

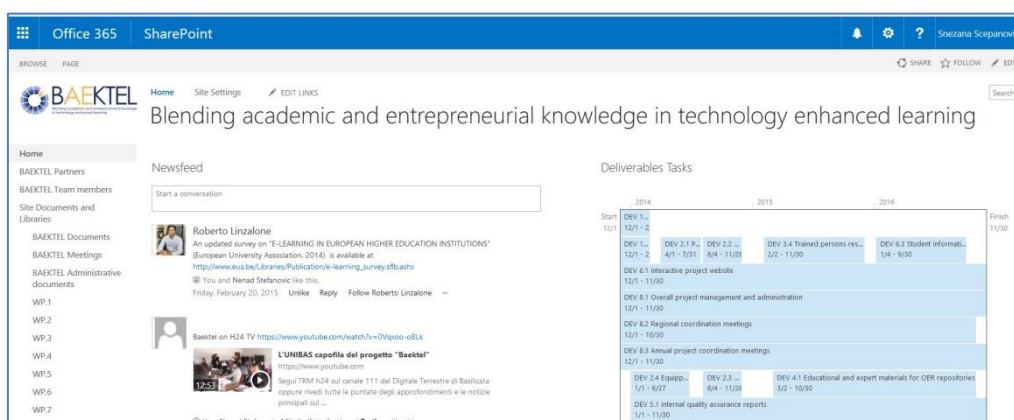

Figure 3: BAEKTEL project management tool - <https://rgfrs.sharepoint.com/sites/baektel/SitePages/Home.aspx>

SP is used as a document management and storage system, in order to ensure good project management, coordination and online collaboration of BAEKTEL partners. BAEKTEL SP is integrated in BAEKTEL web site as a special section (*Project development site*) and it is used by project team members to present, share, and online collaborate in realization of activities from anywhere and on any device.

E-mail accounts @baektel.eu have been created for each team member and used for accessing SP platform and BAEKTEL e-mail. BAEKTEL SP platform is used to support e-mail conversations of project partners. Also, BAEKTEL SP is used for organization of project meetings and collaboration on preparing financial reports.
